

Dawid Domagała

AI-Augmented Senior Full-Stack Developer | 18+ years | C# .NET · Angular | CI/CD & DevOps | FinTech

Senior engineer who multiplied his own output with AI agents. At IG Group I deliver **4× the team-average throughput** (**52 merged PRs vs 13**) and carried **84% of a release** in a team of six, while unit-test lines grew from **19.5k to 91.7k**. **Claude Code sub-agents** clear up to **16 tickets overnight**; I review, test and merge each one in the morning.

domagala.dawit@gmail.com | Wrocław, Poland | English: Fluent | Master of Science in Electronics

400%	84%	16	91.7k	£15M

4× team avg: 52 PRs vs 13	27 of 32 tickets, team of six	Claude sub-agents, each with tests and a PR	up from 19.5k: speed without cutting corners	"Price In Size", first month; my part: L2 Dealer app

Delivery metrics, IG Group 2026 · Sources: Jira, GitLab CI/CD, Git analytics

KEY STRENGTHS · WHAT I BRING

AI-augmented delivery: an app in a day, then stabilise it properly

Claude Code sub-agents run **unattended overnight** on up to **16 tickets**, each returning code, unit tests and a PR. Each morning I **review, test and merge** every one, so accountability stays human. Agent skills and scheduled runs make repeatable work one command; **AI trainings and demos** spread the method across the team.

Soft skills: the person teams want around

Good energy and humour that keep teams motivated. I **listen first**, explain in **simple words** and **mentor**; with trading know-how I act almost as a **business analyst**.

CI/CD & quality gates: speed that stays safe

GitLab CI/CD rebuilt end to end (17k+ lines, Windows + Linux agents). **Diff-coverage** and **smoke-test** gates on every build; **HIGH app maturity**, **24/7** releases, **zero downtime**.

C# .NET backend & Angular frontend

C# .NET since 2007: REST / GraphQL APIs, **microservices**, MSSQL tuning, OOP. **Silverlight → Angular 10** at Credit Suisse; **Angular**, **React**, **Vue.js** apps.

Finance & trading

Level 2 trading platform; risk engines: **LTV, PRC, PRIIPs**. Markets: **equities, CFDs, DMA, FX, futures, options, hedges, crypto**.

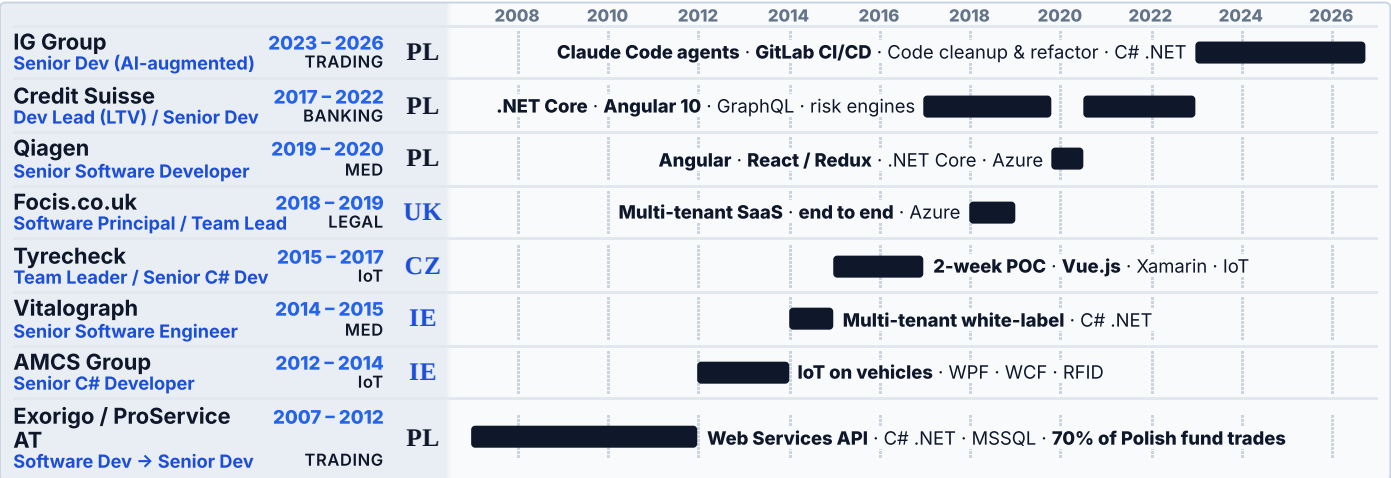

18+ years, leadership & fluent English

Banking, trading, medtech and SaaS; on site in **Ireland** and the **Czech Republic**. Team lead who **recruits** and mentors; **fluent English** in UK, Irish and Swiss teams.

Fast from zero to working product

2-week POC that won a contract (Tyrecheck), **QiaGuest** built from scratch on Azure, a complete **multi-tenant SaaS** (Focis) delivered end to end.

CAREER GANTT CHART, 2007 – 2026

SKILLS

AI	**Claude Code sub-agents**	Agent skills	Scheduled agent runs	Multi-agent pipelines	GitHub Copilot		
BACKEND	**C# .NET 4.8 → 10**	Microservices	REST · SOAP · WCF · Swagger	MS SQL Server · T-SQL	Multithreading	EF Core	
CLOUD & DEVOPS	**GitLab CI/CD (17k+ lines)**	Jenkins	Docker	OpenShift	Azure	Zero downtime	EV certificates
WEB	**Angular 10–15**	**TypeScript · RxJS**	**React**	**Vue.js / Quasar**	GraphQL	ASP.NET MVC	HTML / CSS / JS
QUALITY	**Diff-coverage gates (19.5k → 91.7k)**	**TDD · BDD**	Integration tests	NUnit · Moq · SpecFlow	SonarQube		
ALSO	**Xamarin / Mobile**	WPF / MVVM	WinForms · DevExpress	IoT · RFID	Agile / Scrum		

PROFESSIONAL EXPERIENCE

Senior Developer
IG Group · Kraków (remote) · FinTech — **Poland** — **2023 – Present**

L2 Dealer: Level 2 desktop trading platform (WinForms) for equities, CFDs, futures and FX.

AI-AUGMENTED DELIVERY

- **Overnight agent batches** – Claude sub-agents close up to 16 tickets with tests and PRs.
- **Measured output** – 52 merged PRs vs 13; 84% and 74% of the last two releases.
- **Human in the loop** – I review and merge every PR; diff-coverage and smoke-test gates check each build before release.
- **Trainings & demos** – spreading AI-driven delivery across the team.

RELEASE ENGINEERING & CI/CD

- **GitLab CI/CD suite** – 17k+ lines of PowerShell, Bash and YAML for Windows and Linux agents (Bash scripts generated with AI).
- **Automation** – CRF generation, Confluence release notes, EV code signing.
- **HIGH app maturity** – pipeline rebuilt end to end; 24/7 releases, zero downtime.
- **One-click monthly releases** – from rare, partly manual releases; GitFlow with proper release branches.
- **Build hygiene** – NuGet and JFrog instead of loose DLLs; simpler ClickOnce build.
- **Servers & infrastructure** – admin of Windows and Linux build agents and the IIS server for ClickOnce (config, maintenance, caching fixes).
- **Quality gate** – diff coverage lifted unit-test lines from 19.5k to 91.7k.
- **Smoke-test gate** – each build auto-deployed and launched on a test server: process running, no crash, correct version.

L2 DEALER FEATURES & REFACTORING

- **Price In Size** – sole developer in my team; part of a company-wide initiative worth £15M in its first month.
- **TradeBook V2** – core module rebuilt (Syncfusion → DevExpress), testable, leak-free.
- **Order-entry window** – thousands of lines removed, a long tail of layered defects fixed.

400% THROUGHPUT · **84%** RELEASE SCOPE · **+370%** UNIT TESTS · **HIGH** APP MATURITY · **24/7** RELEASE WINDOW · **£15M** COMPANY-WIDE GAIN

STACK

Claude Code · GitLab CI/CD · C# .NET 4.8 · PowerShell · Bash · YAML · GitFlow · WinForms · DevExpress · JFrog · NuGet · IIS · ClickOnce · SignPath (EV) · Linux agents

Development Lead (LTV) / Senior C# Developer
Credit Suisse · Wrocław · Banking — **Poland** — **2017 – 2022**

Risk and regulatory platforms: LTV, PRC and PRIIPs.

- **Backend & microservices** – .NET 4.6 monolith → .NET Core 3.1 microservices; Castle Windsor IoC, multi-threaded risk calculations; SQL performance and memory-leak fixes.
- **Angular 10 migration** – Silverlight → Angular with a GraphQL (Hot Chocolate) backend; far lower UI latency.
- **PRIIPs** – EU Regulation No 1286/2014 KID documents; backend rewritten .NET 4.8 → .NET 5, BDD tests over 100% of the API.
- **LTV & PRC** – Loan-To-Value for thousands of instruments; risk indicators with overrides, simulations and publishing.
- **Full CI/CD & infrastructure** – every component (frontend, backend, DB, scheduler, MQ, MSI), reused by another project; servers moved to bank-compliant infrastructure.
- **Security** – mutual TLS, role management, smart-card SSO, Splunk logging.
- **Team lead** – 3 engineers: sprints, code reviews, technical recruitment, business communication.

3 ENGINEERS LED · **100%** API BDD TESTS · **4.8→5** .NET REWRITE

STACK

REST · SOAP · WCF · GraphQL · Angular 10 · C# .NET Core / 5 · Hot Chocolate · TypeScript · RxJS · MSSQL · Jenkins · Liquibase · OpenShift · Kubernetes · SpecFlow · Splunk

Senior Software Developer
Qiagen · Wrocław · Life sciences — **Poland** — **2019 – 2020**

Software for laboratory instruments and internal tools.

- **QiaCuity** – digital PCR instrument software taken over from another company: React / Redux UI, Linux (Mono) deployment, CI/CD; inherited technical debt fixed and refactored.
- **QiaGuest** – Angular app and its .NET Core backend built from scratch on Azure for reception staff.

.NET Core API · Angular · React / Redux · TypeScript · C# · Azure · Jenkins · Linux · Mono

PROFESSIONAL EXPERIENCE (CONTINUED)

Team Leader / Senior C# Developer
Tyrecheck · Prague · Automotive IoT — **Czech Republic** — **2015 – 2017**

Tyre-care and fleet-management products for fleet operators.

- **Product suite** – InCenter (ASP.NET MVC), InTire (Xamarin Android) and a TPMS firmware tool; per-customer config via roles, licences and rights.
- **One codebase** – Vue.js, Quasar and Cordova across mobile, web and desktop: 50% less maintenance.
- **Backend** – WCF / REST APIs and MSSQL for live tyre-sensor and SIM-router data.
- **2-week POC** – for German client Alligator Valves GmbH; won a major contract.

2 wks — POC TO CONTRACT
−50% — MAINTENANCE

STACK: WCF · REST, Vue.js, ASP.NET MVC, Quasar, Cordova, Xamarin, WPF, C#, MSSQL

Senior Software Engineer (contract)
Vitalograph · Ennis · MedTech — **Ireland** — **2014 – 2015**

Respiratory diagnostics used in clinics and clinical trials.

- **White-label for Roche** – multi-tenant client delivered in about 10 branded versions for pharma partners, Roche the best known; per-tenant config and branding under medical-device regulation.
- **Diagnostics app** – WinForms: patients, real-time graphs, lung-parameter calculations, PDF reports.
- **Devices & backend** – PCs and Windows Embedded devices, MSSQL backend, APIs for third-party devices.

~10 — WHITE-LABEL VERSIONS
Roche — BEST-KNOWN CLIENT

STACK: Multi-tenant, Device APIs, C# .NET 4.0, WinForms, MSSQL, TeamCity, TFS

Senior C# Developer
AMCS Group · Limerick · Logistics — **Ireland** — **2012 – 2014**

Recycling and waste-management software with on-vehicle technology.

- **Elemos** – multi-language, multi-currency platform: RFID collections, route planning, weighing, invoicing.
- **IoT on vehicles** – live vehicle tracking with route verification and service-delivery parameters sent from the trucks.
- **Office + truck apps** – WPF / MVVM with a WCF backend; Windows Mobile handhelds syncing over GPRS.
- **Quality & Scrum** – 100% server-side unit-test coverage in a highly mature Scrum team.

100% — SERVER UNIT TESTS
Scrum — BEST-IN-CLASS PROCESS

STACK: WCF backend API, WPF / MVVM, C# 5, WinForms, MSSQL, SQL Compact, RFID, GPRS

Software Developer → Senior Software Developer
Exorigo / ProService AT · Wrocław / Warsaw · Banking — **Poland** — **2007 – 2012**

Mutual-fund distribution for a transfer agent connected to many banks.

- **Goniec Online** – fund-sales system live in many Polish banks, handling about 70% of Polish trust fund transactions.
- **Full-stack ownership** – database and T-SQL, web services and WinForms client.
- **Client & audit** – requirements in Warsaw; trained developers and BAs; defended the architecture in a security audit.

70% — POLISH FUND TRADES

STACK: Web Services (IIS), C# .NET 3.5, WinForms, NHibernate, PostSharp, MSSQL, PGP

Software Principal / Team Lead (side project, 12 months)
Focis.co.uk · LegalTech, SaaS — **UK (remote)** — **2018 – 2019**

SaaS case management for law firms.

- **Complete multi-tenant SaaS** – cases, document workflow with statuses, dynamic forms, integration APIs, tenant isolation.
- **Team** – started as a one-person team, later led an additional developer.
- **Extras** – Firebase push notifications and SMS-based login.

Lead — SOLO, THEN TEAM LEAD
E2E — FULL-STACK DELIVERY

STACK: ASP.NET MVC, Backend API, Azure, C# .NET 5, EF Core, MSSQL, JavaScript, Firebase

SOFT SKILLS & TEAM IMPACT

A positive force in every team. People enjoy working with me: I bring good energy and humour that relaxes tense moments and keeps the team motivated and collaborative. I **mentor and coach** colleagues, show them how to break problems down and how to **communicate clearly**, and help polish their English in e-mails and documents.

I **listen first**, stay **patient** and explain complex topics in **simple words**. With solid financial and trading knowledge I often act almost like a **business analyst**: I translate business needs for developers, share domain knowledge with the team, question requirements that do not make sense and propose simpler solutions.
