## AI-AUGMENTED DELIVERY

1. **Tickets go in**
   Scoped Jira tickets for the application, up to 16 per batch.
2. **Sub-agents work unattended overnight**
   Claude Code sub-agents implement, test and open a PR.
3. **Each ticket returns code, unit tests and a PR**
   Nothing merges without review.
4. **Morning: I review, correct and merge**
   A human stays accountable for every line that ships.

IG Group 2026, one team · Jira, GitLab, Git analytics · not a permanent multiplier

Diff-coverage gate on every merge · Company-approved Claude only · Every PR reviewed and tested by me
